---

**.Last week our speaker was [Jordan Harris](#) from Burns Financial Services.**

**She talked to us about upcoming changes in Medicare plans for 2025.**

**The maximum “out of pocket” cost is changing From \$8,000. To \$2,000. Per year. While that may sound like good news, it is likely to cause some drugs to change tiers or not be covered at all. This is important for you to check when you re-enroll this fall. It will also likely cause premiums to rise. Most of the details are not available yet, but will be available in early October.**

**[Pay close attention to your plan for 2025 to make sure your meds are adequately covered on the plan you choose.!](#)**

**We may have Jordan come back when the details are known.**

**As we sail into the final month and a half of our current Optimist year we need to be thinking about a candidate for Optimist of the Year and look forward to our annual Change of Watch event.**

**Our current OOTY is Don Anderson, so he will be coordinating this years Change of Watch. If you would like to help, talk to Don.**

**The event will be in the last week of September.**
