Our speaker last week as we met at Bloomington, was

KENDALL QUALLS, from TAKE CHARGE USA

He told us about their organization who's mission is to educate & inspire black & other minority communities of their full rights and privileges as Americans granted to them by the Constitution

The core principles of the group are:

- The promise of America is available to everyone regardless of skin color or social station.
- The private sector & free enterprise are the fastest route from poverty to prosperity for all Americans.
- A quality education is the gateway to prosperity & parents deserve school choice to ensure their children have access to a quality education.
- Restoring the traditional nuclear family in minority communities should be a priority both locally and nationally.
- The first duty of government is to ensure public safety of its citizens.
